

RING SIZES

Follow the instructions to print this template correctly and choose the size of your ring by ROOSIK&CO.

PRINTING

Once you have opened this file, go to the menu
FILE > Print > Page scaling
> None > OK.

CHECKING

Check that the printed template is correct by using a ruler to measure the square. It must measure 1 cm x 1 cm.

CALCULATE THE SIZE USING A RING

Place the ring that you want to measure on top of the circles until the circle fits the inside of the ring.
If you cannot decide between two sizes, choose the larger size. For larger rings add a size, since as it is wider you will need one number higher.
